

**LD series (only with LED)**

**LDF/010**

LED light indicator.

The light indicator is inserted in the hole from the front of the panel

Screw locking light indicator.

The colour of the cable is the same as the emitted light.

The light indicator can be used with AC and DC (if DC the polarization of the light indicator is NOT necessary).

There is the opportunity to request the screw assembled or apart (not assembled on the plastic case).
